

**ANITS INNOVATION AND INCUBATION COUNCIL
IN ASSOCIATION WITH
DEPARTMENT OF CHEMICAL ENGINEERING
A Model Expo Session during Tech Fest CHEMFLARE-2023, During
March 2nd and 3rd
Report**

06-03-20203

Objective of the session: In house Student participants and Students from various colleges have a time to show case their innovative ideas through Prototypes and working models and have an interactive session with all other student community in order to improve their skill set

Department of Chemical engineering has organized two day national Techfest CHEMFLARE-2023 during March 2nd and 3rd 2023. In these two days many technical events like Technical Paper presentation, poster Presentation, Model expo and Cross Word competitions were conducted. Along with some non-technical events like meme competitions, Mock parliament sessions and Mock CID (Treasure Hunt) competitions were also conducted.

A Model Expo session (Technical Prototype/Working Model Exhibition) named Reflux conducted in Association with ANITS IIC in these two days (March 2nd and 3rd 2023). During this session Around 12 Models were presented and around 45 Students were enthusiastically involved in making them.

Outcomes of the session: Students enlightened with the session and a wide variety of innovative ideas were exchanged between student community and practical understanding of many theoretical concepts is improved.

HOD, Chemical engineering Prof. R. Srikanth, IIC, Vice-president Dr.Ch. Anil and IIC Coordinator Mr. B. Pradeep Santosh Kumar and other faculty, Students of Department of Chemical engineering attended the session. Principal, Prof. K. Sri Rama Krishna has appreciated the initiation from the department and at the end of the session winner were presented with certificates and cash prizes.
